TO WHOM IT MAY CONCERN

RE: STEVE ONYIRO

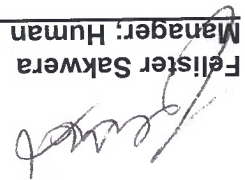

Steve Onyiro was engaged by MTN Business as a Infrastructure Engineer Intern from 25th January to 24th March 2017 He reported to the Team Leader; Infrastructure during this period. His assigned tasks revolved around;

- Assisted in the assembling of data center server cabinets
- Termination of N-type connectors on coaxial LMR 400 cable and laying CAT 6 cable, laying of single mode cable from transmission point to router
- Reconfiguration of point to point Wireless Radios, troubleshooting and restoring faulty links at client site
- Using Optical Network Monitoring System to establish link failures, equipment power levels, provision of services and general monitoring of network traffic
- Mounting and configuration of Cisco ASR 9000 core router and aggregation switches at MTN core site
- Assembling OLT (optical line terminal) chassis and Testing Rectifier
- Configuring Cisco switches and routers to be supplied to client
- Configuration and deployment of VOIP SIP Phones at client site.

Steve performed these duties competently, with commitment and enthusiasm. He demonstrated the ability to work under pressure and meet tight deadlines. He exhibited strong interpersonal and communication skills allowed thus developed good working relationship with his colleagues and customers.

We highly recommend him for employment. Should you require any further information, do not hesitate to contact the undersigned.

Yours sincerely,

Felister Sakwera

Manager, Human Resources.
